Areas of capacity building

Broad areas in which capacity is needed

- Institutional capacity
- · Human resources capacity development and training
- · Risk assessment and other scientific and technical expertise
- · Risk management
- · Information exchange and data management including participation in the Biosafety Clearing-House
- Scientific, technical and institutional collaboration at subregional, regional and international levels
- Identification of LMOs, including their detection

Needs and priorities

Specific needs and priorities

· Development of a national biosafety policy

 $Extent\ of\ implementation$

Preferred means

Major target groups

· Not addressed

Technical assistance and advice

[Not specified]

Development of national biosafety laws and regulations

Extent of implementation

Preferred means

Major target groups

· Partially addressed

· Technical assistance and advice

• [Not specified]

Guidance / training materials

· Guidance on mainstreaming of biosafety into other sectors
